NEW

## NEW ROOFING MEMBRANES COLOUR RAL 7035

From 1.3. 2020 there will be a new colour RAL 7035 included in the roofing membranes product range. This colour will gradually substitute the current RAL 7040.

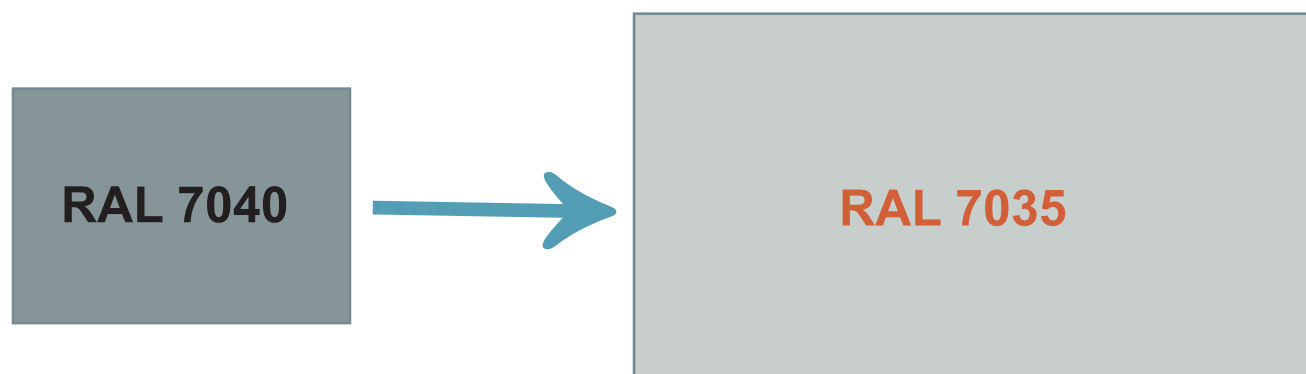

### RAL 7035 ADVANTAGES:

- better reflection of sunlight
- does not absorb heat
- lower heating of the roof
- prolongation of membranes service life

### THE CHANGE CONCERNS THE FOLLOWING MEMBRANES:

- FATRAFOL 810, 810/V
- FATRAFOL 818/V-UV
- FATRAFOL 807, 807/V
- FATRAFOL 814
- FATRAFOL 804

The new colour will be included in the FATRANYL PVC coated metal sheets product range.
